CORE COMPETENCES & TECHNICAL CAPABILITIES

Manufacturing competences

- Complete Communication and Control systems integration for utilities
- Manufacturing at Uskom Istanbul
- Uskom works with multiple partners and integrates systems into its final product
- Basing on specifications, tailor made solutions or standard production is available
- In-house team available for custom hardware and software development
- Fast-track design and production capability

Technical capabilities

for telecommunication, security and SCADA systems at utilities (Mainly Electricity, Metro and Tram Lines, Oil and Gas, Railways)

- In house Design and Engineering
- Procurement, manufacturing and delivery of materials
- Field Works
- Training
- Operation and Maintenance
- Turnkey Project Management

System Solutions

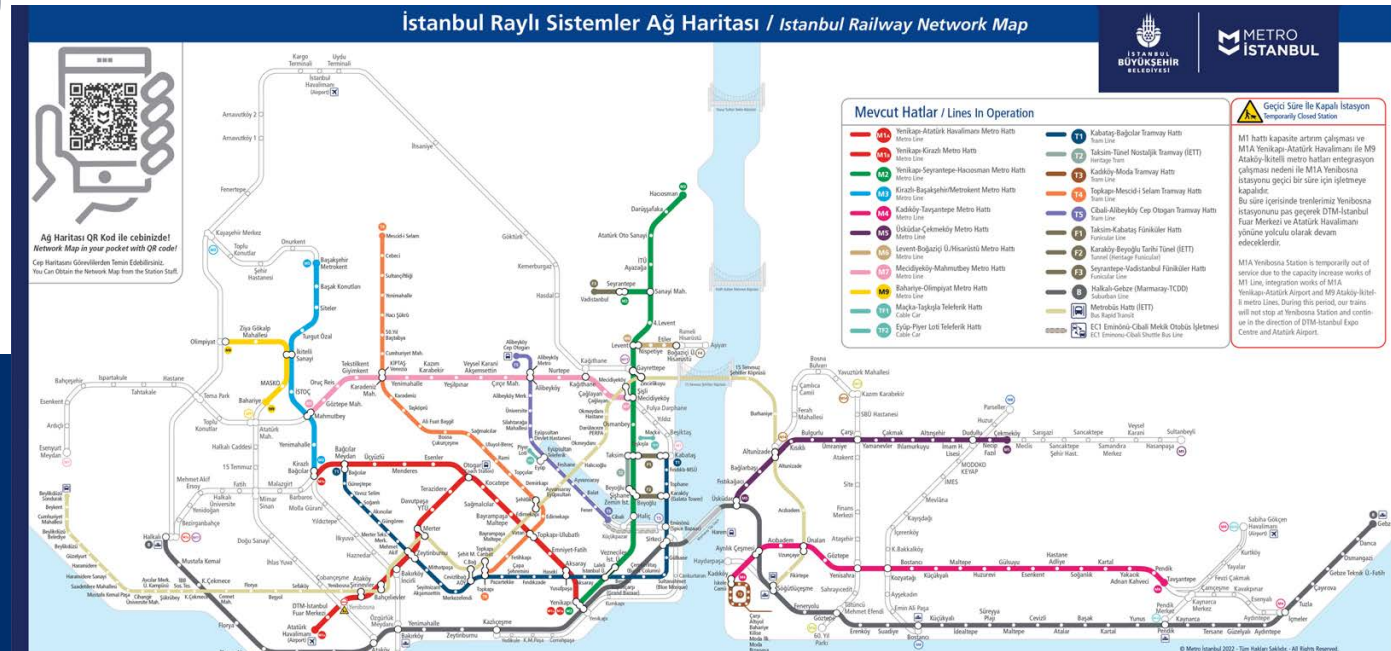

- Communication Systems
 - Fiber Optic Systems, Power Line Carriers
 - PABX, Multiplexers
 - Tetra, Microwave, UHF
 - Cellular Networks
- SCADA / EMS / DMS / Smart Grid
 - National Load Control Centers
 - Distribution Management Systems
 - Substation and Power Plant Automation
- Intrusion Detection Systems
- Leak Detection Systems
- Control and Protection Systems
- IP CCTV System
- Passenger Information System
- Tunnel Train Broadband Coverage System
- Telephone System
- Public Address System
- Access Control System
- Fire Alarm System
- Central Clock System

Coverage and Simulation Engineering

- Mobile Radio Coverage
 - Indoor Coverage
 - Outdoor Coverage
- Radio Link Coverage
- CCTV System Coverage
- Public Address Acoustic Studies

Special Integrated Solutions

- Signaling System Interface with major companies
- CRD Central Dispatch System
- USPID - Unified Passenger Information
- USPA - Unified Public Address
- OnBoard Radio Hardware
- Omnimot – Meter Automation

Geçici Süre İle Kapalı İstasyon

M1 hattı kapasite artırım çalışması ve M1A Yenikapı-Atatürk Havalimanı ile M9 Ataköy-İkitteli metro hatları entegrasyon çalışması nedeniyle M1A Yenibosna istasyonu geçici bir süre için işletmeye kapalıdır.
Bu süre içerisinde trenlerimiz Yenibosna istasyonuna pas geçerek DTM-İstanbul Fuar Merkezi ve Atatürk Havalimanı yönüne yolculuk olarak devam edecektir.
M1A Yenibosna Station is temporarily out of service due to the capacity increase works of M1 Line, integration works of M1A Yenikapı-Atatürk Airport and M9 Ataköy-İkitteli metro lines. During this period, our trains will not stop at Yenibosna Station and continue in the direction of DTM-İstanbul Expo Centre and Atatürk Airport.
